Domain 1: Advanced functions

  1.1 Logical functions
  1.2 Math and statistical functions
  1.3 Financial functions
  1.4 Displaying and printing formulas

Domain 2: Lookups and data tables

  2.1 Using lookup functions
  2.2 Using MATCH and INDEX
  2.3 Creating data tables

Domain 3: Advanced list management

  3.1 Validating cell entries
  3.2 Exploring database functions

Domain 4: PivotTables and PivotCharts

  4.1 Working with PivotTables
  4.2 Rearranging PivotTables
  4.3 Formatting PivotTables
  4.4 PivotCharts

Domain 5: Exporting and importing

  5.1 Exporting and importing text files
  5.2 Exporting and importing XML data
  5.3 Querying external databases

Domain 6: Analytical options

  6.1 Goal Seek and Solver
  6.2 The Analysis ToolPak
  6.3 Scenarios
  6.4 Views

Domain 7: Macros and custom functions
7.1 Running and recording a macro
7.2 Working with VBA code
7.3 Creating functions

Domain 8: Conditional formatting and SmartArt

8.1 Conditional formatting with graphics
8.2 SmartArt graphics
